

TURRI

The new modular sofa of *Roma* collection by Monica Armani

The refined lines and the timeless character of the new modular sofa belonging to *Roma* collection designed by **Monica Armani for Turri** draw inspiration from the elegance of the Eternal City. Presented the last year in its regular version, this new creation represents the evolution of an already consolidated design, which still expresses the DNA of the full collection.

Monica Armani has restated her unique style by showing one more time her ability in the expert use of carefully selected materials, and the renewed pairing of iconic fabrics. Bouclé and velvets - already featuring the collection - are reinterpreted in new colours and shapes by offering an even wider range of use opportunities in the *interior* projects.

As it stated by its name, the sofa offers a unique versatility: its modular design allows to easily customise the arrangement to adjust to the space needs. Every section can be composed and arranged in different ways to create the ideal composition - a L or U-layout or a more creative one.

The expertise of **Monica Armani** can be seen in the attention for details and the high-quality research by matching **Turri's** reliability and *know-how*.

Made with high-quality materials, *Roma's* sofa guarantees durability and resistance over the time. It is upholstered with soft and comfortable cushions, and offers a perfect support for a complete relax, while the solid and stable structure assures a comfort feeling during the daily use.

The wide seat is made more comfortable thanks to big independent cushions and an armrest extended along the entire profile of the upholstery. It reminds to the welcoming hospitality of the Rome's salons, where the well-being of the guests was a priority.

Roma sofa features metal legs, available in different finishing, *Champagne Gold*, and *Graphite Grey*. Beside their aesthetic value, these legs have a specific function: they gently lift the sofa from the ground by making it lighter.

Thanks to its versatility and character, the modular sofa of *Roma's* collection is still an ideal solution for those who desire a strong contemporary *living* space.

Roma sofa designed by **Monica Armani for Turri** will be globally premiered at **Turri Stand (Hall 13 | Booth A09 - B10)** from **16 to 21 April** in the exhibition spaces of Rho Fiera Milano.
